

Unlocking Hidden Value with Tutenlabs

Revolutionizing facility operations through AI Automation

Real-time Insights. Optimized Performance.

GAURAV MOR

A modern clean technology company that specializes in facility management, energy optimization, and field service automation for large enterprises

About Tutenlabs

Facility Management

Provides comprehensive facility management solutions for large multi-site enterprises

Energy Optimization

Advanced energy optimization platforms to help clients reduce utility expenses and improve operational efficiency

Field Service Automation

Field service automation solutions streamline maintenance and compliance processes, driving down costs and improving performance

Enterprise Focus

Primarily serves large multi-site organizations in industries such as retail, real estate, healthcare, and the public sector

The Silent Drain on Your Bottom Line

Rising Energy Costs

30-50% increase projected over next 5 years

Reactive Maintenance

Costs 3 to 5 times more than proactive approaches

Operational Inefficiencies

Hidden waste eroding your EBITDA margins

Introducing Tutenlabs: Intelligent Automation for Facilities

Energy Optimization

Reduce consumption and lower utility bills

Tutenlabs' Energy Optimization Platform provides real-time energy consumption data and analytics to help enterprises identify and implement targeted efficiency measures, leading to reduced utility expenses and improved profit margins

Predictive Maintenance

Prevent downtime and extend asset lifespan

Tutenlabs' Predictive Maintenance Automation solution utilizes sensor data and machine learning to predict equipment failures, enabling proactive maintenance and reducing unplanned downtime and repair costs

Facility Operations

Streamline processes for maximum efficiency

Tutenlabs' Integrated Facility & Field Operations Platform streamlines maintenance workflows, automates compliance tracking, and provides a unified view of multi-site operations, driving operational efficiency and cost savings

Boosting Uptime: Never Miss a Beat

Prevent Failures

Stop costly equipment breakdowns before they happen

Automated Alerts

Receive instant notifications of potential issues

Extend Asset Life

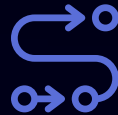

Maximize returns on capital investments

Tutenlabs Advantage

Data-Driven Decisions

Identify and eliminate inefficiencies swiftly

AI Automated Workflows

Reduce manual work and speed up responses

Enhanced Visibility

Gain full control of your facility operations

Impact by Numbers
